

Policy on the Integration of Sustainability Risks in the Investment Decision-Making Process

Information Statement on our Policy on the Integration of Sustainability Risks in the Investment Decision-Making Process Issued by B-FLEXION Fund Management (Ireland) Limited In respect of the Funds under Management.

Date of initial publication of this Information Statement: 10th March 2021

This Information Statement is accurate as at: 10th March 2021

Sustainable Finance Transparency The European Union has introduced a series of legal measures (the primary one being the Sustainable Finance Disclosures Regulation (Regulation (EU) 2019/2088)) requiring firms that manage investment funds to provide transparency on how they integrate sustainability considerations into the investment process with respect to the investment funds they manage.

Our Approach to Sustainable Investment

At B-FLEXION Fund Management (Ireland) Limited we believe that investors, and asset managers that invest on their behalf, have a responsibility to make their investments in a way that effectively supports a sustainable society. At the core of our commitment to help our clients achieve their financial objectives is a conviction that this can be achieved by investing responsibly. We value the importance of integrating Environmental, Social, and Governance (ESG) factors into the investment and risk processes and fundamentally believe that this is aligned with the aim of achieving long-term positive financial performance for investors. We also recognise and value the fact that this will also support the better functioning of companies that investment managers invest in, enhancing behaviour in a wide range of markets and industries and having a positive societal impact beyond the financial markets.

What is a Sustainability Risk?

In this context a sustainability risk is considered to be an environmental, social or governance event or condition that, if it occurs, could cause an actual or potential material negative impact on the value of an investment. Information on How we Integrate Sustainability into the Investment Decision-Making Process B-FLEXION Fund Management (Ireland) Limited has appointed affiliated investment managers to manage the investments of the Funds.

For more information on how each investment manager integrates sustainability risks into their investment research and risk management process, please refer to the investment strategy of the relevant Funds as set out in the addendum to the Prospectus which can be found on the B-FLEXION Fund Management (Ireland) Limited website and the associated investment manager materials, which can be found on the websites of each investment manager as set out below 1 Note – when updates are made to this information statement, updated text will be clearly identifiable.
